The Golf Course

The golf course is generally considered one of the best in Sydney due to several factors:-

1. Penrith Golf Club is one of the longest golf courses in the Sydney Metropolitan Area at 6333m.
2. The type of grass for the fairways (couch) is regarded as the preferred playing surface for golf courses (NSW Golf Course Superintendents Association).
3. Bent grass greens of a formidable size offer players an even, consistent playing surface.
4. Penrith Golf Club has previously hosted four (4) NSW PGA 72 hole Championship events, the Australian Seniors PGA Championships from 2000 – 2004 and the 2010 NSW Junior Boys Championship.

The course is supported by a Toro monitored irrigation system. Water for irrigation purposes is sourced direct from the Nepean River via a pump shed and 6km pipeline. The Club is capable of drawing 220 mega litres of water per annum.
